

Think.... your numbers can't be bigger than 12.  
What number can you multiply by itself 2 times that will be less than 12?

The coloured shapes stand for eleven of the numbers from 0 to 12.

Each shape is a different number.

Can you work out what they are?

$$\square \times \square \times \square = \text{half-circle}$$

$$\text{rectangle} \times \text{rectangle} = \text{star}$$

$$\square \times \text{oval} = \text{half-circle}$$

$$\square \times \text{star} = \text{hexagon}$$

$$\text{rectangle} \times \text{oval} = \text{circle}$$

$$\text{rectangle} \times \text{diamond} = \text{rectangle}$$

$$\text{rectangle} \times \square = \text{triangle}$$

$$\text{diamond} \times \text{hexagon} = \text{hexagon}$$

$$\text{triangle} \times \square = \text{circle}$$

$$\square \times \text{inverted triangle} = \text{inverted triangle}$$

$$\square \times \square = \text{oval}$$

$$\text{inverted triangle} \times \text{half-circle} = \text{inverted triangle}$$
